- APPENDIX A – INFORMATION ABOUT THE PROCESSING
- APPENDIX B – AUTHORISED SUB-PROCESSORS
- APPENDIX C – INSTRUCTION PERTAINING TO THE USE OF PERSONAL DATA
- APPENDIX D – THE PARTIES' TERMS OF AGREEMENT ON OTHER SUBJECTS

By signing an Agillic Order Form, the Client as the “data controller” and Agillic A/S as the “data processor”, each a ‘party’, together ‘the Parties’, have agreed to the following contractual clauses (the “Clauses”) in order to meet the requirements of The General Data Protection Regulation (“GDPR”) and to ensure the protection of the rights of the data subject.

1. PREAMBLE

- 1.1 The Clauses set out the rights and obligations of the data controller and the data processor, when processing personal data on behalf of the data controller.
- 1.2 The Clauses have been designed to ensure the parties' compliance with Article 28(3) of Regulation 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data and repealing Directive 95/46/EC (General Data Protection Regulation).
- 1.3 In the context of the provision of The Agillic Omnichannel Marketing Automation Platform (the "Platform"), the data processor will process personal data on behalf of the data controller in accordance with the Clauses.
- 1.4 The Clauses shall take priority over any similar provisions contained in other agreements between the parties.
- 1.5 Four appendices are attached to the Clauses and form an integral part of the Clauses.
 - 1.5.1 Appendix A contains details about the processing of personal data, including the purpose and nature of the processing, type of personal data, categories of data subject and duration of the processing.
 - 1.5.2 Appendix B contains the data controller's conditions for the data processor's use of sub-processors and a list of sub-processors authorized by the data controller.
 - 1.5.3 Appendix C contains the data controller's instructions with regards to the processing of personal data, the minimum security measures to be implemented by the data processor and how audits of the data processor and any sub-processors are to be performed.
 - 1.5.4 Appendix D contains provisions for other activities which are not covered by the Clauses.
- 1.6 The Clauses along with appendices shall be retained in writing, including electronically, by both parties.
- 1.7 The Clauses shall not exempt the data processor from obligations to which the data processor is subject pursuant to the GDPR or other legislation.
- 1.8 The latest documentation of the Platform is available via <https://support.agillic.com> and <https://developers.agillic.com>

2. THE RIGHTS AND OBLIGATIONS OF THE DATA CONTROLLER

- 2.1 The data controller is responsible for ensuring that the processing of personal data takes place in compliance with the GDPR (see Article 24 GDPR), the applicable EU or Member State¹ data protection provisions and the Clauses.
- 2.2 The data controller has the right and obligation to make decisions about the purposes and means of the processing of personal data.
- 2.3 The data controller shall be responsible, among other, for ensuring that the processing of personal data, which the data processor is instructed to perform, has a legal basis.

3. THE DATA PROCESSOR ACTS ACCORDING TO INSTRUCTIONS

- 3.1 The data processor shall process personal data only on documented instructions from the data controller, unless required to do so by Union or Member State law to which the processor is subject. Such instructions shall be specified in appendices A and C. Subsequent instructions can also be given by the data controller throughout the duration of the processing of personal data, but such instructions shall always be documented and kept in writing, including electronically, in connection with the Clauses.
- 3.2 The data processor shall immediately inform the data controller if instructions given by the data controller, in the opinion of the data processor, contravene the GDPR or the applicable EU or Member State data protection provisions.

4. CONFIDENTIALITY

- 4.1 The data processor shall only grant access to the personal data being processed on behalf of the data controller to persons under the data processor's authority who have committed themselves to confidentiality or are under an appropriate statutory obligation of confidentiality and only on a need to know basis. The list of persons to whom access has been granted shall be kept under periodic review. On the basis of this review, such access to personal data can be withdrawn, if access is no longer necessary, and personal data shall consequently not be accessible anymore to those persons.
- 4.2 The data processor shall at the request of the data controller demonstrate that the concerned persons under the data processor's authority are subject to the abovementioned confidentiality.

¹ References to "Member States" made throughout the Clauses shall be understood as references to "EEA Member States".

5. SECURITY OF PROCESSING

- 5.1 Article 32 GDPR stipulates that, taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of processing as well as the risk of varying likelihood and severity for the rights and freedoms of natural persons, the data controller and data processor shall implement appropriate technical and organisational measures to ensure a level of security appropriate to the risk.
- 5.2 The data controller shall evaluate the risks to the rights and freedoms of natural persons inherent in the processing and implement measures to mitigate those risks. Depending on their relevance, the measures may include the following:
- 5.3 Pseudonymisation and encryption of personal data;
- 5.3.1 the ability to ensure ongoing confidentiality, integrity, availability and resilience of processing systems and services;
 - 5.3.2 the ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident;
 - 5.3.3 a process for regularly testing, assessing and evaluating the effectiveness of technical and organisational measures for ensuring the security of the processing.
- 5.4 According to Article 32 GDPR, the data processor shall also – independently from the data controller – evaluate the risks to the rights and freedoms of natural persons inherent in the processing and implement measures to mitigate those risks. To this effect, the data controller shall provide the data processor with all information necessary to identify and evaluate such risks.
- 5.5 Furthermore, the data processor shall assist the data controller in ensuring compliance with the data controller’s obligations pursuant to Articles 32 GDPR, by inter alia providing the data controller with information concerning the technical and organisational measures already implemented by the data processor pursuant to Article 32 GDPR along with all other information necessary for the data controller to comply with the data controller’s obligation under Article 32 GDPR.

If subsequently – in the assessment of the data controller – mitigation of the identified risks require further measures to be implemented by the data processor, than those already implemented by the data processor pursuant to Article 32 GDPR, the data controller shall specify these additional measures to be implemented in Appendix C.

6. USE OF SUB-PROCESSORS

6.1 The data processor shall meet the requirements specified in Article 28(2) and (4) GDPR in order to engage another processor (a sub-processor).

6.2 The data processor shall therefore not engage another processor (sub-processor) for the fulfilment of the Clauses without the prior:

Choice 1: specific written authorisation

Choice 2: general written authorisation of the data controller.

Choice 1 or 2 is specified in the Order Form

6.3 [OPTION 1 SPECIFIC PRIOR AUTHORISATION] The data processor shall engage sub-processors solely with the specific prior authorisation of the data controller. The data processor shall submit the request for specific authorisation at least 30 days prior to the engagement of the concerned sub-processor. The list of sub-processors already authorised by the data controller can be found in Appendix B.

[OPTION 2 GENERAL WRITTEN AUTHORISATION] The data processor has the data controller's general authorisation for the engagement of sub-processors. The data processor shall inform in writing the data controller of any intended changes concerning the addition or replacement of sub-processors at least 30 days in advance, thereby giving the data controller the opportunity to object to such changes prior to the engagement of the concerned sub-processor(s). Longer time periods of prior notice for specific sub-processing services can be provided in Appendix B. The list of sub-processors already authorised by the data controller can be found in Appendix B.

6.4 Where the data processor engages a sub-processor for carrying out specific processing activities on behalf of the data controller, the same data protection obligations as set out in the Clauses shall be imposed on that sub-processor by way of a contract or other legal act under EU or Member State law, in particular providing sufficient guarantees to implement appropriate technical and organisational measures in such a manner that the processing will meet the requirements of the Clauses and the GDPR.

The data processor shall therefore be responsible for requiring that the sub-processor at least complies with the obligations to which the data processor is subject pursuant to the Clauses and the GDPR.

6.5 A copy of such a sub-processor agreement and subsequent amendments shall – at the data controller's request – be submitted to the data controller, thereby giving the data controller the opportunity to ensure that the same data protection obligations as set out in the Clauses are imposed on the sub-processor. Clauses on business related

issues that do not affect the legal data protection content of the sub-processor agreement, shall not require submission to the data controller.

- 6.6 The data processor shall agree a third-party beneficiary clause with the sub-processor where – in the event of bankruptcy of the data processor – the data controller shall be a third-party beneficiary to the sub-processor agreement and shall have the right to enforce the agreement against the sub-processor engaged by the data processor, e.g. enabling the data controller to instruct the sub-processor to delete or return the personal data.
- 6.7 If the sub-processor does not fulfil his data protection obligations, the data processor shall remain fully liable to the data controller as regards the fulfilment of the obligations of the sub-processor. This does not affect the rights of the data subjects under the GDPR – in particular those foreseen in Articles 79 and 82 GDPR – against the data controller and the data processor, including the sub-processor.

7. TRANSFER OF DATA TO THIRD COUNTRIES OR INTERNATIONAL ORGANISATIONS

- 7.1 Any transfer of personal data to third countries or international organisations by the data processor shall only occur on the basis of documented instructions from the data controller and shall always take place in compliance with Chapter V GDPR.
- 7.2 In case transfers to third countries or international organisations, which the data processor has not been instructed to perform by the data controller, is required under EU or Member State law to which the data processor is subject, the data processor shall inform the data controller of that legal requirement prior to processing unless that law prohibits such information on important grounds of public interest.
- 7.3 Without documented instructions from the data controller, the data processor therefore cannot within the framework of the Clauses:
 - 7.3.1 transfer personal data to a data controller or a data processor in a third country or in an international organisation;
 - 7.3.2 transfer the processing of personal data to a sub-processor in a third country;
 - 7.3.3 have the personal data processed in by the data processor in a third country.
- 7.4 The data controller’s instructions regarding the transfer of personal data to a third country including, if applicable, the transfer tool under Chapter V GDPR on which they are based, shall be set out in Appendix C.6.
- 7.5 The Clauses shall not be confused with standard data protection clauses within the meaning of Article 46(2)(c) and (d) GDPR, and the Clauses cannot be relied upon by the parties as a transfer tool under Chapter V GDPR.

8. ASSISTANCE TO THE DATA CONTROLLER

- 8.1 Taking into account the nature of the processing, the data processor shall assist the data controller by appropriate technical and organisational measures, insofar as this is possible, in the fulfilment of the data controller's obligations to respond to requests for exercising the data subject's rights laid down in Chapter III GDPR.

This entails that the data processor shall, insofar as this is possible, assist the data controller in the data controller's compliance with:

- 8.1.1 the right to be informed when collecting personal data from the data subject;
 - 8.1.2 the right to be informed when personal data have not been obtained from the data subject;
 - 8.1.3 the right of access by the data subject;
 - 8.1.4 the right to rectification;
 - 8.1.5 the right to erasure ('the right to be forgotten');
 - 8.1.6 the right to restriction of processing;
 - 8.1.7 notification obligation regarding rectification or erasure of personal data or restriction of processing;
 - 8.1.8 the right to data portability;
 - 8.1.9 the right to object;
 - 8.1.10 the right not to be subject to a decision based solely on automated processing, including profiling.
- 8.2 In addition to the data processor's obligation to assist the data controller pursuant to Clause 6.3, the data processor shall furthermore, taking into account the nature of the processing and the information available to the data processor, assist the data controller in ensuring compliance with:
- 8.2.1 the data controller's obligation to without undue delay and, where feasible, not later than 72 hours after having become aware of it, notify the personal data breach to the competent supervisory authority, Datatilsynet, unless the personal data breach is unlikely to result in a risk to the rights and freedoms of natural persons;
 - 8.2.2 the data controller's obligation to without undue delay communicate the personal data breach to the data subject, when the personal data breach is likely to result in a high risk to the rights and freedoms of natural persons;
 - 8.2.3 the data controller's obligation to carry out an assessment of the impact of the envisaged processing operations on the protection of personal data (a data protection impact assessment);

8.2.4 the data controller's obligation to consult the competent supervisory authority, Datatilsynet, prior to processing where a data protection impact assessment indicates that the processing would result in a high risk in the absence of measures taken by the data controller to mitigate the risk.

8.3 The parties shall define in Appendix C the appropriate technical and organisational measures by which the data processor is required to assist the data controller as well as the scope and the extent of the assistance required. This applies to the obligations foreseen in Clause 9.1. and 9.2.

9. NOTIFICATION OF PERSONAL DATA BREACH

9.1 In case of any personal data breach, the data processor shall, without undue delay after having become aware of it, notify the data controller of the personal data breach.

9.2 The data processor's notification to the data controller shall, if possible, take place within **24 hours** after the data processor has become aware of the personal data breach to enable the data controller to comply with the data controller's obligation to notify the personal data breach to the competent supervisory authority, cf. Article 33 GDPR.

9.3 In accordance with Clause 9(2)(a), the data processor shall assist the data controller in notifying the personal data breach to the competent supervisory authority, meaning that the data processor is required to assist in obtaining the information listed below which, pursuant to Article 33(3)GDPR, shall be stated in the data controller's notification to the competent supervisory authority:

9.3.1 the nature of the personal data including where possible, the categories and approximate number of data subjects concerned and the categories and approximate number of personal data records concerned;

9.3.2 the likely consequences of the personal data breach;

9.3.3 the measures taken or proposed to be taken by the controller to address the personal data breach, including, where appropriate, measures to mitigate its possible adverse effects.

9.4 The parties shall define in Appendix C all the elements to be provided by the data processor when assisting the data controller in the notification of a personal data breach to the competent supervisory authority.

10. ERASURE AND RETURN OF DATA

10.1 On termination of the provision of personal data processing services, the data processor shall be under obligation to delete all personal data processed on behalf of the data controller and certify to the data controller that it has done so.

10.2 The following EU or Member State law applicable to the data processor requires storage of the personal data after the termination of the provision of personal data processing services:

10.2.1 Denmark

The data processor commits to exclusively process the personal data for the purposes and duration provided for by this law and under the strict applicable conditions.

11. AUDIT AND INSPECTION

11.1 The data processor shall make available to the data controller all information necessary to demonstrate compliance with the obligations laid down in Article 28 and the Clauses and allow for and contribute to audits, including inspections, conducted by the data controller or another auditor mandated by the data controller.

11.2 Procedures applicable to the data controller's audits, including inspections, of the data processor and sub-processors are specified in appendices C.7. and C.8.

11.3 The data processor shall be required to provide the supervisory authorities, which pursuant to applicable legislation have access to the data controller's and data processor's facilities, or representatives acting on behalf of such supervisory authorities, with access to the data processor's physical facilities on presentation of appropriate identification.

12. THE PARTIES' AGREEMENT ON OTHER TERMS

12.1 The parties may agree other clauses concerning the provision of the personal data processing service specifying e.g. liability, as long as they do not contradict directly or indirectly the Clauses or prejudice the fundamental rights or freedoms of the data subject and the protection afforded by the GDPR.

13. COMMENCEMENT AND TERMINATION

13.1 The Clauses shall become effective on the date of both parties' signature.

13.2 Both parties shall be entitled to require the Clauses renegotiated if changes to the law or inexpediency of the Clauses should give rise to such renegotiation.

13.3 The Clauses shall apply for the duration of the provision of personal data processing services. For the duration of the provision of personal data processing services, the Clauses cannot be terminated unless other Clauses governing the provision of personal data processing services have been agreed between the parties.

13.4 If the provision of personal data processing services is terminated, and the personal data is deleted or returned to the data controller pursuant to Clause 11.1. and Appendix C.4., the Clauses may be terminated by written notice by either party.

13.5 Signature: See Order Form.

14. DATA CONTROLLER AND DATA PROCESSOR CONTACTS/CONTACT POINTS

14.1 The parties may contact each other using the following contacts/contact points:

The data processor: contact@agillic.com

The data controller: See Order Form.

14.2 The parties shall be under obligation continuously to inform each other of changes to contacts/contact points.

APPENDIX A – INFORMATION ABOUT THE PROCESSING

A.1. The purpose of the data processor's processing of personal data on behalf of the data controller is:

To allow the data controller to send communications to recipients based on personal data provided by the data controller using the Platform provided by the data processor.

A.2. The data processor's processing of personal data on behalf of the data controller shall mainly pertain to (the nature of the processing):

Storing, generation, and delivery of personalised communication e.g. via email, pdf, SMS, app notifications to specific individual recipients and target groups on third party media platforms.

A.3. The processing includes the following types of personal data about data subjects:

See specification in the Order Form

A.4. Processing includes the following categories of data subject:

See specification in the Order Form

A.5. The data processor's processing of personal data on behalf of the data controller may be performed when the Clauses commence. Processing has the following duration:

Until deletion by the data controller, which can be done at any time, or 60 days after the end of contract between the data controller and data processor after which retention of the daily backups are phased out.

APPENDIX B – AUTHORISED SUB-PROCESSORS

B.1. Approved sub-processors

On commencement of the Clauses, the data controller authorises the engagement of the following sub-processors:

See specification in the Order Form

The data controller shall on the commencement of the Clauses authorise the use of the abovementioned sub-processors for the processing described for that party. The data processor shall not be entitled – without the data controller’s explicit written authorisation – to engage a sub-processor for a ‘different’ processing than the one which has been agreed upon or have another sub-processor perform the described processing.

If the data controller refuses to make changes regarding the addition or replacement of sub-processors, this may result in the data processor being prevented from fulfilling the services. If this is the case, the Controller agrees that failure to provide services shall not be considered a breach of contract. The Processor furthermore maintains its right to payment for such services, notwithstanding that they cannot be provided to the Controller.

B.2. Prior notice for the authorisation of sub-processors

At least 30 days.

APPENDIX C – INSTRUCTION PERTAINING TO THE USE OF PERSONAL DATA

C.1. The subject of/instruction for the processing

The data processor's processing of personal data on behalf of the data controller shall be carried out by the data processor performing the following:

Storing, generation, and delivery of personalised communication e.g. via email, pdf, SMS, app notifications, third party media platforms to specific individual recipients and target groups.

C.2. Security of processing

The level of security shall take into account:

The data processor shall hereafter be entitled and under obligation to make decisions about the technical and organisational security measures that are to be applied to create the necessary (and agreed) level of data security.

The data processor shall however – in any event and at a minimum – implement the following measures that have been agreed with the data controller:

- Authentication: User access requires authentication using a valid username and a strong password defined by the client's password policy. The platform supports Two-factor Authentication using SMS or e-mail and runs on a secure HTTPS channel.
- Authorisation: The platform supports role-based access with policies restricting and limiting users' right to sensitive customer data and with the possibility to give granular permission to various parts of the application. Agillic APIs have full access to data.
If authorised as Administrator, it is possible to create integration with Facebook, Google Ads and Adform using each provider's standard integration method.
- User Logging: All application activities incl. user interactions and API calls are logged with a timestamp.
- Database security: Customer data is stored at data centres which are severely restricted so that only personnel with the correct authorisation can access them.
- Encryption: All customer data and log data are encrypted using 256-bit AES encryption and an account-specific key.
- Transmission: The platform encrypts data in transit on all public channels (SFTP, HTTPS API and user interface, WebDAV over HTTPS). Agillic supports TLS 1.2 and TLS 1.3. Data in transit between different Agillic components is encrypted using TLS 1.2 over HTTPS.
- Deletion of recipients: The platform is built to integrate with master data repositories that control addition and removal of recipients. The recommended approach to maintain recipient data is through data integration. It is also possible to delete recipients manually in Agillic using target groups.

To stay compliant with the “right-to-be-forgotten”, an internal recipient ID is stored and used to re-delete deleted customers in case a back-up is restored.

- Activity Logging: Activities across different system components are logged and tracked for auditing purposes. The activity is logged with date/time, type of activity, source IP, and other relevant transactional information.
- Availability, Backups, Redundancy, and Recovery: Backups are done daily and are stored for two months off-premise at multiple sites. In case of hardware failure, our virtualised servers are automatically transferred to new hardware with no downtime.
- Geo-fencing: We ensure the storage of customer data within the EU (either in Denmark or Ireland).
- Virtual Security: The infrastructure is as restricted as possible. That includes those that can access the servers, firewall configuration, IP restrictions, disabling of non-used features (hardening) and use as secure ciphers as possible.
- Network Management: The implemented firewall only allows Internet connection to the allowed ports: Port 80 for HTTP and Port 443 for HTTPS. The firewall also handles Network Address Translation (NAT). NAT masks the true IP address of a server from the client connecting to it.

Broadcast storm mitigation services are used to protect our servers from DDoS and similar attacks.

- Maintenance and monitoring: We patch and upgrade applications and servers regularly to ensure the best possible protection from exploits. Furthermore, Agillic performs regular vulnerability and penetration tests of network and equipment using a variety of tools and technologies, including Nessus and other industry-standard solutions.
- Physical security and Access Control: Customer data and our production environments are all hosted at high-security, Tier3+ equivalent data centres that conform to ISO 27001 Information Security Standards.

Access to the data centres where the application is running and the data is persisting is limited to authorised personnel only. Physical security measures include on-premises security guards, closed-circuit video monitoring and additional intrusion protection measures.

- Employee access to customer data: Agillic employees are restricted to access customer data on a need-to-know basis, based on the role of the employee and only after written consent by the customer. All access is logged in details.
- Training: Agillic employees are trained on how to apply security and privacy policy when hired and on an annual basis.

- Workstations: The personal computer for each employee is centrally managed and updated (incl. antivirus, patches and enforcement of automatic access lock) and uses two-factor authentication.

The networks are segregated to ensure least privileged access and access are centralised managed (LDAP).

- Development: Security is an integrated part of Agillic's development process with a focus on Security-by-Design as well as Privacy-by-Design.

Agillic continuously seeks to improve the security setup by taking proactive as well as corrective actions.

- Incident and Risk Handling: The handling of incidents and identified risks follows a strict and well-defined procedure in accordance with ISO 27001 guidelines.
- Change management: Procedures for changes are documented and include a risk assessment, QA, and approval processes.

C.3. Assistance to the data controller

The data processor shall insofar as this is possible – within the scope and the extent of the assistance specified below – assist the data controller in accordance with Clause 9.1. and 9.2. by implementing the following technical and organisational measures:

Technical measures are described in C.2 and the data processor will provide necessary personnel to provide information described in Clause 9.1. and 9.2.

C.4. Storage period/erasure procedures

Personal data is stored until 60 days after the end of contract between the data controller and data processor after which the personal data is automatically erased by the data processor.

C.5. Processing location

Processing of the personal data under the Clauses cannot be performed at other locations than the following without the data controller's prior written authorisation:

See specification in the Order Form

C.6. Instruction on the transfer of personal data to third countries

Uploading personal data to Facebook and Google via the platform is an instruction to the data processor to transfer data to a third country or international organisation for which the data controller has confirmed in the Order Form to have a GDPR valid legal basis.

If the data controller does not in the Clauses or subsequently provide documented instructions pertaining to the transfer of personal data to a third country, the data processor shall not be entitled within the framework of the Clauses to perform such transfer.

C.7. Procedures for the data controller's audits, including inspections, of the processing of personal data being performed by the data processor

The data processor shall annually at THE DATA PROCESSOR'S expense obtain an INSPECTION REPORT from an independent third party concerning the data processor's compliance with the GDPR, the applicable EU or Member State data protection provisions and the Clauses.

The parties have agreed that the following types of INSPECTION REPORT may be used in compliance with the Clauses: ISAE 3000

The INSPECTION REPORT shall without undue delay be submitted to the data controller for information upon request. The data controller may contest the scope and/or methodology of the report and may in such cases request a new audit/inspection under a revised scope and/or different methodology.

Based on the results of such an audit/inspection, the data controller may request further measures to be taken to ensure compliance with the GDPR, the applicable EU or Member State data protection provisions and the Clauses.

The data controller or the data controller's representative shall in addition have access to inspect, including physically inspect, the places, where the processing of personal data is carried out by the data processor, including physical facilities as well as systems used for and related to the processing except for Amazon Web Services and LINK Mobility Group, which prohibit physical inspections for security reasons. Such an inspection shall be performed, when the data controller deems it required.

APPENDIX D – THE PARTIES' TERMS OF AGREEMENT ON OTHER SUBJECTS

See Order Form.
